NATIONAL WORKERS' COMP LAW FIRM AIDS SAINT BARNABAS MEDICAL CENTER NEONATAL INTENSIVE CARE UNIT

Participation in *Miracle Walk* Fundraiser by Adelson, Testan, Brundo, Novell & Jimenez Part of Firm's National Community Support Program

BASKING RIDGE, New Jersey, October 11, 2017 – Attorneys and staff of the Basking Ridge office of Adelson, Testan, Brundo, Novell & Jimenez (ATB), a leading workers' compensation defense law firm, recently showed their support for the Saint Barnabas Medical Center Neonatal Intensive Care Unit (NICU) by making a donation and participating in the annual *Miracle Walk* fundraiser for the unit.

Miracle Walk was created by a family in gratitude for the care their daughter received during a three-month stay in the Saint Barnabas Medical Center NICU. A team of dedicated parents had joined together to organize and participate in this annual walk-a-thon to raise financial support for the NICU. During the past 16 years, *Miracle Walk* has raised over \$5 million to purchase advanced medical technology for the NICU.

"It was a wonderful day of caring for our entire office and everyone involved," said Marie Rose Bloomer, Managing Partner of the ATB Basking Ridge office. "It was a moving and inspiring experience for all of us to walk together with so many children and adults who had been neonatal infants treated at Saint Barnabas and to hear their incredible stories."

The attorneys and staff of ATB's Basking Ridge office joined in the walk and made a donation to the unit; the law firm earned distinction as the *Miracle Walk's* "Best New Sponsor of 2017," during the event's opening ceremonies. ATB's support for Saint Barnabas Medical Center NICU is part of its ATB Cares, a national initiative started at the beginning of this year, involving each of its 26 offices around the country in various community outreach activities.

As a result of the ongoing success of *Miracle Walk*, the NICU at Saint Barnabas Medical Center has acquired state-of-the-art equipment, such as Giraffe Omnibeds, NeoPuff infant resuscitators, neoBLUE LED phototherapy lights, and cutting-edge Isolette infant transporters to help treat the more than 1,100 infants the unit cares for each year. Parents of babies treated at Saint Barnabas for prematurity, low birth weight, serious illness, and congenital disorders know the invaluable care they receive has provided for optimal outcomes.
